**1. Course outline:**

The academic discipline is aimed at building foreign language communicative competence which enables future specialists to functionally use a foreign language as a means of professional and interpersonal communication, to plan verbal and non-verbal behavior with regard to the specifics of the communication situation, as well as to obtain, expand and deepen systemic knowledge of professional discourse.

**2. Course learning outcomes:**

Upon completion of the course, students will be expected to

**know:**

- the system of a foreign language being studied in its phonetic, lexical and grammatical aspects;
- socio-cultural norms of day-to-day, professional and business communication as well as the rules of speech etiquette, allowing future specialists to effectively use the foreign language as a means of communication in the modern multicultural world;
- history and culture of the country of the language being studied.

**be able to:**

- implement effective professional and socio-cultural communication;
- read and translate authentic professional literature (skimming, scanning, intensive and extensive reading);
- express in writing communicative intentions in the field of professional and intercultural activities;
- draw up written documents with regard to peculiarities of business lettering, fill out forms for participation in conferences, symposiums, etc.;
- write abstracts and summaries of professionally oriented and scientific texts;
- understand authentic oral speech.

**possess:**

- skills of interpersonal, intercultural and professional communication in a foreign language;

- public speaking skills (message, report, presentation, project, etc.);
- error monitoring and correction methods.
