

ORGANIZATION AND MANAGEMENT OF THE ENTERPRISE
ANNOTATION
TO THE CURRICULUM OF A HIGHER EDUCATION INSTITUTION

Specialty 1-36 01 01 "Mechanical engineering technology"

	Form of higher education		
	Full-time (full-time)	Correspondence	Correspondence abbreviated
Course	3	5	4
Semester	6	9	7
Lectures, hours	34	8	8
Practical (seminar) classes, hours	34	4	8
Term paper, semester	6	9	7
Exam, semester	6	9	7
Classroom hours for academic discipline (including hours for controlled independent work)	68(20)	12	16
Independent work, hours	40	96	92
Total hours of academic discipline / credits	108 (3 з.е.)		

1. Summary of the academic discipline The main categories, principles, forms, functions and methods of organization of production and management in mechanical engineering are considered; the content of preparation and planning of production, its functioning and maintenance, forms and methods of work with personnel.

2. Learning outcomes - to know the content and development of the organization and management of the enterprise.....

3. Formed competencies SK-2.3 understand the system foundations of the organization of production, the specifics of the organization of various types of production, design and technological preparation of production, technical and economic planning and production management

4. Requirements and forms of current and interim certification. Written surveys, defense of abstracts and practical papers, defense of term papers and an exam are used for certification.
