

LABOUR PROTECTION

ANNOTATION TO THE CURRICULUM OF THE INSTITUTION OF HIGHER EDUCATION

Specialty 1 - 37 01 06 Technical operation of vehicles (by directions)

Specialty 1 - 37 01 07 Car service (according to directions)

	STUDY MODE		
	Full-time	Part-time	заочная форма обучения
	1-37 01 07	1 — 37 01 06	1 - 37 01 06
Course	2	2	1
Semester	3	3	2
Lectures, hours	34	34	2
Laboratory classes, hours	16	16	4
In-class test, hours			2 (2ч)
credit, semester	3	3	2
Total classroom hours for discipline	50	50	8
Independent work, hours	58	86	122
Total course duration in hours / credit units	108/3	136 / 3	136/ 3

1. Brief content of the discipline

Provides information about the current laws, rules and regulations on labour protection. The technique of identification and analysis of hazardous and harmful factors of the production environment is considered.

1. **own: the methodology of instructing employees to ensure the safety of their work.**

Formed competencies

Codes of generated competencies	Names of competencies being formed
	Specialty 1 — 37 01 06
AK-1	Be able to apply basic scientific and theoretical knowledge to solve theoretical and practical problems technical operation of vehicles.
AK-4	Be able to work independently
AK-7	Have skills related to the use of technical devices, information management and work with computer.
AK- 9	Be able to learn, improve your skills throughout your life
СЛК- 1	Possess the qualities of citizenship
СЛК- 3	Possess the ability for interpersonal communication
СЛК- 4	Learn health care skills.
СЛК- 5	Be capable of criticism and self-criticism
СЛК- 6	Be able to work in a team
ПК-19	Reveal the patent purity of technical solutions in the field of car maintenance and repair.
ПК-20	Prepare technical documentation for tenders, conduct an examination of tender materials and consultations of customers of projects on these materials.
ПК-21	Reasonably choose the method of logistics for the organization of automotive transport.
	Specialty 1 37 01 07
БФИК - 1	Be able to apply the basic rules of safety, industrial sanitation, fire safety and methods of protecting production personnel and the public from the possible consequences of accidents, natural disasters.

2. Requirements and forms of current and intermediate certification.

To assess the level of knowledge, it is necessary to complete reports on laboratory work with their oral defense, writing a control rating, completed control work and an individual task, and passing a test in writing.
