1. Course outline. The discipline "History of Belarusian statehood" is designed for implementation at the first stage of higher education in the cycle of socio-humanitarian disciplines for first-year students of all specialties of higher education. The study of this discipline is focused on the formation of stable ideas about the historical past and directions of further development of the state.

The discipline "History of Belarusian statehood" has a disciplinary character. It focuses primarily on the conceptual knowledge of the history of the development of state institutions, the inherent attributes of the Belarusian statehood and the formation of practice-oriented skills. The discipline reflects a systematic approach to the history of the formation and development of different stages of Belarusian statehood, their evolution, taking into account internal factors and global processes. The aim of the discipline "History of the Belarusian statehood" is to form a reasonable patriotic position.

The aim of the study of the discipline "History of Belarusian statehood" in higher education institutions is to form a system of knowledge of the history of Belarusian statehood and to develop skills to comprehend the events and phenomena of reality in close interconnection of the past, present and future; to create a stable idea of the historical path and aims of further development of the Belarusian state; to develop skills to formulate their opinions in a well-grounded and clear way.
