

SCIENTIFIC RESEARCH PRACTICE

(course title)

INTERNSHIP COURSE SYLLABUS

ABSTRACT

7-06-0714-02 Innovative technologies in mechanical engineering

(speciality code and name)

Computer engineering of transport and technological machines

(concentration)

	STUDY MODE		
	full-time	part-time	part-time (shortened program)
Year	2		
Semester	4		
Total course duration in hours / credit units	216/6		

1. Internship course outline (aims and objectives)

The purpose of research practice is to systematize, expand and consolidate professional knowledge, and to develop students' skills in conducting independent research.

2. Course learning outcomes

Learning outcomes:

- to consolidate theoretical knowledge in the field of organization and conduct of scientific research;
- to master practical skills in the field of organization and conduct of scientific research;
- to develop practical expertise in the field of organization and conduct of scientific research.

3. Competencies

Solve research and innovation tasks based on the use of information and communication technologies

4. Form of midcourse evaluation

The form of the current certification is oral.

The form of intermediate certification is an exam.
